"Tombstowne", known also as 'The Forgotten Land' is where many have gone but never returned. The castle would seem to have a mysterious and unexplained control over peoples minds. Many have tried to solve the mystery surrounding the land but met their fate before escaping. Many priests and experts in this field have offered a considerable reward to whoever can overcome the seemingly impossible tasks.

Can you succeed? A spell is required from the castles book of spells in order to lift the curse from the Castle of Tombstowne. Originally the book came from the castles library, rescued by an unsuspecting victim who returned in an incurable state of mind, with many of the pages missing, believed to be still in the land of Tombstowne. When all the blue pages have been retrieved the cauldron will be ready to cast the spell.
