Working Copy Instructions

The disc in this pack must be copied onto a new blank disc to make a working copy. To do this follow the steps below.

1. Load your CP/M system disk into the disk drive (drive A if you have two disk drives).
2. Type **l cpm** **[ENTER]**
3. When the CP/M prompt appears, type **FORMAT** **[ENTER]**
4. When requested replace the CP/M system disc with a new blank disc and press any key.
5. When formatting is complete re-insert your CP/M system disc.
6. Type **FILECOPY *.*** **[ENTER]** Follow the screen prompts inserting the source (the original master disc in this box) and destination (the new blank disc you have just formatted) discs as requested.
7. When copying is complete your new disc will be a working disc. Put the original master in a safe place, and only use the copy.
8. Load the CP/M system disc, and press any key.
9. To copy onto side 2 of the disc, repeat steps 3-8.
