Bell Technical Services

TECHNICAL SUPPORT for this excellent Digital Research product is handled by Bell Technical Services, the leading computer technical services company in Europe.

Sooner or later even the most experienced user needs to check at least some small point with the author of the product. To enable you to do this and much more, Digital Research and Bell Technical Services have set up the BTS-AMPRO Service *exclusively for Amstrad users* who want to get the most from their software.

The BTS-AMPRO Service is a telephone hotline available on a separate phone number between the hours of 09.00 and 17.00 Monday to Friday.

You can talk to our professional experts about any problem you may have with your product as many times as you wish, and get all the information you'll ever need, for a period of a year following registration.

All you have to do is fill in the application form and FREEPOST with £15 + VAT (total £17.25) to us here at BELL.

Bell Technical Services - Protecting your investment in software.
