

Killing Machine User Manual

The goal of this game is to survive as many waves of enemies as you can.

It will get more challenging as you advance in the game.

This only depends on you and your skill.

Have fun and challenge yourself!

This is your character, Charlie.

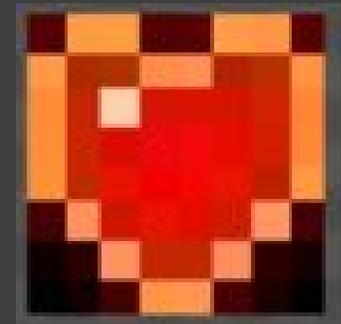

He needs your help to survive
those strange monsters that will Appear.

These are charlie's health points

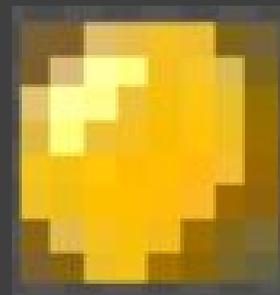

Be careful, if you run out of them, Charlie will die.
However, if you stay

safe for some seconds, they will regenerate.

Charlie has twelve of them.

Charlie's bullets look like this

Charlie's controls are these:

- To move:
 - w/a/s/d
- To shoot:
 - space bar
- To aim:
 - i/j/k/l

Let's talk about those creatures which Charlie is going to deal with.

- SPIDER: it is able to move and shoot you! Be aware of it!

It shoots green bullets made of snots.

EYE: it cannot move, but be aware. It's damage is higher than spider's.

It's bullets are made of void and despair.

- GHOST: you can't stand still or it will surprise eating charlie's soul. It's speed is faster than speed of light!

Hope you enjoy!
