LIFE-TERM
Full colour graphic and text adventure.

In the year 3142 democratic government broke down and was replaced by rule by multi-planetary companies, vast multi-billion dollar organisations with just two thoughts in mind; personal gain and the extinction of all competition! What justice existed was metered out by the Trade Police who attempted to keep the fine balance between the factions vying for supremacy. For the rich, life was good. For the outsider it was a hard life and treachery, deceit and corruption were rife. On the 14th of the 3rd in the year 47 the central complex computers of the Flo-Tec Trading Corp registered an intruder. Security staff were despatched to the point of entry and after an exchange of fire one security guard lay dead and the intruder had escaped. Although Jake Stalin was 13,000,000 miles away at the time it didn't stop him being accused, tried and found guilty of the man's murder!

He was sentenced to the maximum LIFE-TERM.

Since execution as such no longer existed he was put in charge of a planetoid named Souzel where the refuse from a dozen planets was collected for processing into raw materials for building purposes. There he would stay for the natural term of his life. Or could there be a way out?

STAR WRECK
Full colour graphic and text adventure.

A mission to the far reaches of a distant Galaxy. This is a story from the log of the Star Ship 'Paralysed'.

You Captain James T. Cake, are on this mission to the planet Dandrox with a cargo of one Trell and a Rigellian Slime Beast which are needed for experimental purposes. You also have on board the Thracian Ambassador going to Dandrox and a Krall in transit to Alpha-Trica 111.

The success of your mission is down to your own initiative and ability as a Star Ship Commander. After payment of the necessary fee at the checkout in this store you will be immediately beamed aboard your Star Ship. Good Luck Captain.

WIZ BIZ
Full colour graphic and text adventure.

So . . . you've woken up then Ralph?

I don't suppose you remember much about last night?, how you took part in a particularly alcoholic session at the 'Duck and Plunger'? It appears you were drinking with some of your 'WIZARD' buddies when you performed your usual party piece by turning one of them into a pink and black spotted Salamander ∴. That was Mike.

When the spell wore off the chap in question wasn't too pleased. That's how you ended up in his Castle. You are NOT his favourite person. Only your familiar spirit can help you now . . . If you can remember his name that is, you dozy old goat.
