Codemasters now present a whole new dimension in value-for-money video games. Our PLUS range games come in special double packs, bringing you two cassettes full of stunningly sophisticated programming. Once you have mastered the standard game, you can move up to the expert version, which contains extra challenges for even the best games players.

Two cassettes, four different sides!
Side 1 Standard game
Side 2 Expert game - for the real pro's
Side 3 Extra courses: Coastlines
Side 4 Extra courses: Docks
Weave your way around the islands and under the bridges. Avoid getting caught up in the deadly weeds. Take your jet bike flying over the aqua jumps. Compete against a friend in a 2-player head-to-head game. Computer controlled drone bikes included. See your victories (and failures!) with the action replay option. Incredibly playable!!!

David and Richard Darling first started writing computer games when they were in their early teens and still at school. They duplicated the cassettes themselves and sold them mail order by taking small advertisements in magazines.

From these beginnings David and Richard became contract programmers. They wrote and sourced games for major software houses, many of these games were major best sellers.

In October 1986 the Darlings set up Code Masters, their own company. From the beginning they were determined to sell only the best possible games at the lowest possible price. One title, BMX Simulator, went on to become one of the world's best selling games.

In less than a year Code Masters had a string of top ten hits to its name. The company was the best selling software house in Britain. David and Richard are now 21 and 19 years old and are determined to continue what they do best: producing top selling computer games.
