THE STORY

Chicago 1931. The Mafia led by the notorious Al' Capone, controls the city, he has the mayor, the judges and half the police force on his payroll. No one dare stand up against him, no one that is except you.

You take the role of a street wise rookie cop from the east side of town, intent on stamping out the fear and corruption that grips the windy city.

The Mafias most loyal gang members, are guarding the area of down-town Chicago known as the Fortress. An area of apartment blocks, warehouses and garages which form the headquarters for Capones' illegal liquor distribution operation. This is where you will begin your mission.

The task will not be easy, as some of Al's gangsters take hostages. You must use your considerable firearms skills to put to an end to Capones' reign of terror, without harming any innocent civilians.

PLAYING THE GAME

If you are using a Spectrum or Amstrad computer you may use either joystick or keyboard controls. C64 owners must use a joystick connected in port 2. Move the gunsight using your chosen control method and operate the gun by pressing the fire button.

Your only means of protection from enemy bullets is the dodge key, when you press this key you will be shielded but only for a short period of time.

Once you have completed the first area you will be given a more difficult task. The further you progress into the game the faster and more devious your opposite numbers become.
