

AMSTRAD

destiny the dark lord

Αν έχετε βαρεθεί τα συνηθισμένα adventure games, παιχνίδια χωρίς απρόοπτα και χωρίς ενδιαφέρον τότε αυτό είναι το παιχνίδι για σας. "Destiny, the Dark Lord" ένα γεμάτο φαντασία παιχνίδι για τον AMSTRAD. Ο σκοπός σας είναι να βοηθήσετε το Ρίτσαρντ να βρει την όμορφη Σαμάνθα, το κορίτσι του, που την έκλεψε ο Σκοτεινός Λόρδος και την φυλάκισε στο νησί του. Έχετε να περάσετε κινδύνους πολλούς, σκοτεινά δάση, ετοιμόρροπες γέφυρες, θάλασσες να διασχίσετε, οπλισμένους φρουρούς, φαντάσματα, κακά πνεύματα, αντικείμενα να μαζέψετε, σκοτεινές, θανατηφόρες παγίδες, όλα αυτά και άλλα πολλά σας περιμένουν στο "Destiny the Dark Lord".

Η πληκτρολόγησή του είναι απλή. Μόλις τελειώσετε γράψτε SAVE "DESTINY" και θα έχετε δικό σας αυτό το απίθανο πρόγραμμα.

Μια προειδοποίηση: Ο Ρίτσαρντ είναι οξυθυμος. Προσέξτε λοιπόν τι του προτείνετε, γιατί δεν έχει ενδοιασμό να σας απαντήσει ανάλογα.

Καλή διασκέδαση με το παιχνίδι μας.

Υ.Γ. Για να δώσετε εντολές, χρησιμοποιείστε σκέτη τη διεύθυνση για παράδειγμα "West" όχι "Go, West". Επίσης για να παρεν αντικείμενα, αρκεί ένα "get", όχι "get beacon" για παράδειγμα. Οι εντολές του παιχνιδιού είναι οι: "north, east, west, south, get, steal, in".
