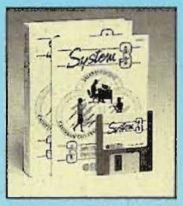
All products developed, written and manufactured in Great Britain.

PROGRAM

SYSTEM 3:



Take the first essential step in computerising your business with this simple integrated suite of programs:

1. Invoicing and Statements: This program will greatly reduce time and cost of preparing invoices and stotements. Professionally printed invoices and a full record of debtors.
2. Stock Control: Effectively control your stock, purchasing and produce re-order reports, stock valuation, price lists, etc.
3. Cashflow Controller: Keep track of the most important aspects of business – cash flow. Essentially a debit/credit ledger system, its flexibility lies in its ability to produce account balances instantly for debtors, creditors, VAT, Bank, Petty Cash, together with a record of all transactions, dates and descriptions. A management aid designed to run alongside your existing accounting system.

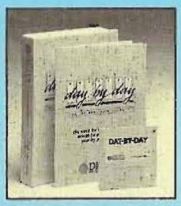
DGCALC:

The fastest and most powerful spreadsheet available in this price bracket, with 512 rows by 52 columns, giving you up to 26,624 cells. As with all Digita products, the operation of the program is clearly thought out. Being either menu, mouse or command driven you'll be able to start using it within minutes – even if you've never used a spreadsheet before. Some of the features which make it such good value are the exporting of ASCII files for integration with other programs, adjustable column width and text overflow, programmable function keys (macros), and a unique windowing facility, so that you con look at different parts of o sheet at the same time. Ideal for home budgeting, investments, comparing rent/lease/buy options, and small businesses including cash flows, invoices, costings, price lists, etc.

DATASTORE II:

Looking for fast access to stored information? Want to create customised reports, mailing lists for printing labels, office and personol records with NO technical knowledge? Researched, developed and written exclusively for the Amstrad PCW, this progrom will fully utilise the facilities of your computer. It makes an ideal partner for the novice or expert. Features include fast searching/sorting, calculation on fields, definable printing templates, ASCII export, 32 fields, 32,000 records, merging files and much more.

DAY-BY-DAY:



An excellent way to get organised. With it you"ll be reminded of birthdays and other anniversaries, meetings and oppointments, phone calls to make and so on. As with all Digita products, inputting information is simplicity itself and, once entered, you can search for keywords or for particular events such as birthdoys to see when one is coming up. Includes month/week/day planner, automatic reminders for overdue appointments, month and week summary at a glance. For less than £30 this is the ideal way to make sure you never miss that important occasion again!

E-TYPE:

Wordprocessors have revolutionised the modern office and now the conventional typewriter is dead. Or is it? Do you ever have to print names and addresses at awkward places on envelopes, or do you ever need to fill in tricky forms or invoices where the text has to be in exactly the right place? Usually you have to do it by hand, or get your trusty old typewriter out of the cupboard and dust it off. Well, not any more. The Emulated TYPEwriter transforms your computer and printer into a fully fledged typewriter, supporting bold, underline, italic and other type-styles. Because it can display and print text INSTANTLY you can line up your form, press Return and Space a few times to move to the correct place, and then start typing. Alternatively you can switch to line-by-line mode, which offers word-wrap, justification and proportional spacing, so that you can edit each line before it's printed.

HOME ACCOUNTS:

Ideal for both home users and small business. Simple to use, this package will keep track of all your finonces and cater for income up to 10 types of income (e.g., Bank, credit card), and 60 types of expenditure (e.g., rates, mortgage, gas, food), with optional budgeting and forecasting. The program will handle Standing Orders and Direct Debits, and automatically warn if, for example, Bank charges are likely, or if you have exceeded your credit limit. With the comprehensive reporting and graphics facilities you can even produce your own monthly Bank/Credit card statements! Once you've used Home Accounts, you'll wonder how you ever managed without it.

PROFESSIONAL TAX PLANNER:

An advanced version of Personal Tax Planner designed for the Accountant or financial adviser. The program will achieve beffer handling of tax compliance work, eliminate tedious manual calculations, remove simple human errors and standardise tax work.

SUMMARY

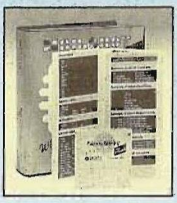
PERSONAL TAX PLANNER:

Are you absolutely sure your taxman is doing his job correctly? Plan your own tax with ease, this menu-driven program will calculate your income tax liability (4 tax years included) and provide pertinent facts about your tax position. You can perform 'what-if?' calculation to discover ways to minimise your tax liability. In fact, the program will advise you on things such as, if you are a married man, whether or not it would be advantageous to have your wife's income taxed separately. At this price who knows, you will probably find that PTP will pay for itself in tax savings the first time you use it!

MAILSHOT:

If you ever need to sent out mailings or print labels, you know how fiddly and time-consuming it can be making sure all the labels are printed correctly. Well now all that's a thing of the past. Because Mailshot actually shows you the labels on screen, so you can type names and addresses in exactly the correct place. But, more than that, the labels are animated on screen as a continuous sheet, allowing you to scroll backwards and forwards, to search for particular keywords or to edit entries with the minimum of fuss. Facilities include surname searching, detection of duplicate labels, sorting, 9 labels across, 999 copies of any label. This has to be the simplest and most effective method of creating a mailshot available.

MAILSHOT PLUS:



Includes all the features of Mailshot AND: integration with other software (using ASCII files); column/tabulated summary (ideal for telephone lists, etc.); 4 extra memo lines per label (with defaults), searching and sorting also operate on memo lines; system for coding, dating and adding messages to each label; different layouts available for horizontal and vertical justification.

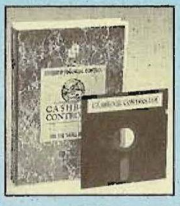
DGBASE:

Looking for fast access to stored data, and the ability to create customised reports (including office/personnel records, labels and mail-merging), then DGBase is for you. Designed and written specifically for the Atari ST, DGBase will fully utilise the facilities of your computer and GEM. This powerful, relational database offers access across 4 files simultaneously, maths, integration with DGCalc and Mailshot Plus (and any other program using ASCII files). You can even modify or, add fields AFTER setting up your database.
Simplicity itself, DGBase comes on one disc, which includes on-line help and is limited only by the capacity of your ST and imagination!

BUSINESS CONTROLLER:

A complete cashbook accounting system for the sole trader/partnership/limited company. Use the program to assist day-to-day book-keeping and VAT Returns, to complete End of Year Accounts if you wish. This program is simple to use, supported by an excellent manual with tutorial, meets legal requirements and will show the full financial state of your business. In addition to recording cash and bank transactions, the program will allow you to enter credit sales and purchasers, and for all of these entries it will automatically complete double entry routines, to ensure your records are always in balance. Simple enough for the beginner, yet sufficiently powerful to grow with your business.

CASHBOOK CONTROLLER:



Use your computer as a powerful business tool and take the drudgery out of book-keeping! In its simplest form, the program will replace your Cash and Petty Cash books BUT Digita's program, in effect, does much more. In addition to recording cash and bank transactions, the program will allow you to enter credit sales and purchases, and for all of these entries it will automatically complete double entry routines, to ensure your records are always in balance. Typical information from Cashbook Controller includes: summary of VAT information to enable completion of VAT Return; monthly summaries and departmental analyses of sales and purchases; total debtors and creditors, sales, and overheads; income and expenditure analysis; journal routine for entering transfers between accounts; 199 nominal account titles, most of which are user definable; observes accounting procedures and meets legal requirements, assuring correct approach to book-keeping; full audit trail and integrates with Final Accounts.

FINAL ACCOUNTS:

The program will take information prepared by Cashbook Controller and produce a complete set of accounts, including: Trial Balance; Trading and Profit and Loss Account; Balance Sheet; Notes to the Accounts; Full Accounting Ratios. All reports may be produced at any time, with comparative/budget figures if required. The facility to produce these documents quickly, accurately, and regularly is of enormous help in running any business, large or small, since one shows the true profitability achieved, and the other the exact strength of the business in terms of assets and liabilities.

CASHBOOK CONTROLLER COMBO:

Money-saving combination pack featuring both Cashbook Controller and Final Accounts - Save £10.00.

Digita also produce CLASSIC SPACE INVADERS!

Distinctly Digita . . .

Cleverly written and always favourably reviewed in the press, Digita software represents outstanding value for money. See for yourself! -

"Independent Press Comments"

SYSTEM 3

"Simple user-friendly, professional looking printed output would be a credit to any business. Any small business that needs to computerise its operation need look no further. No rival in the sub £50 bracket. Format Value 90%."

ST FORMAT 6/90

"Well planned and presented. Those running a small business, who have been put off normal business software by the amount of accounts knowledge needed to operate them, will find System 3 a welcome relief. It will be of enormous help for those who are running their business effectively, but are not accountants."

ST WORLD 4/90

". . . very quickly prove invaluable. The report options in particular are very useful."

PERSONAL COMPUTING 4/90

DGBASE

"Features that many existing packages would envy. Some innovative features and wide choice of field types give the program a unique flavour.'

ATARI ST USER 5/90

HOME ACCOUNTS

"My overall impression of this program was one of QUALITY . . . excellent value for money."

AMIGA USER INTERNATIONAL 11/88

"It's first rate. Easy to use, wide range of facilities, good reporting facilities."

ATARI ST USER 12/88

"Digita has come up with another polished piece of professional software."

AMIGA COMPUTING 1/89

DAY-BY-DAY

"Simple, but well written and efficiently does the job it was designed for – organising your day and reminding you of appointments, meetings and so on."

ATARI ST USER 3/89

MAILSHOT PLUS

"I have no hesitation in recommending this program."

AMSTRAD PROFESSIONAL COMPUTING 8/88

"It's difficult to fault, and it's a pleasure for a reviewer who all too frequently is on the receiving end of grotty software to have had the opportunity to explore an unfussy, user-friendly and really professional piece of business software."

AMIGA COMPUTING 2/89

PERSONAL TAX PLANNER

"I can unhesitatingly recommend PTP. An excellent program."

COMPUTING WITH THE AMSTRAD PCW 11/87

BUSINESS CONTROLLER

"Very professional, and nicely packaged. The best product around for a small business. And that's praise indeed."

AMSTRAD PCW 12/87

"Business Controller is probably one of the best all-rounders your money can buy."

8000 Plus 5/90
