

**ABSOLUTELY
BRILLIANT**

You find yourself in the driving seat of NATO's latest and most sophisticated tank. Heavily armed and with tungsten reinforced armour your mission is to fight through 8 deadly battle zones. But a hail of lethal enemy fire rains down on you from every direction! Enemy gun turrets aim their blistering firepower directly at you (genuine artificial intelligence!). On the later battles you will actually find yourself sitting inside the tank with a tank's eye view – zooming your gunsights in on enemy snipers, choppers, jeeps, armoured personnel carriers, and tanks. You search for the exit from each war-zone at the end . . . only to be thrown headlong into another blistering challenge!!!
